## Amendments to the Abstract:

Please delete the abstract on pages 40 and 41.

Please insert the following new abstract on page 40:

A novel electroluminescent polymer is represented by the following formula. A film of the polymer represented by the following formula can be formed by electrolytic polymerization, and further emits light in a different color by an electric field when a substituent thereof is changed. Therefore, a light-emitting device that is capable of multicolor displaying can be easily obtained.

$$R_7$$
 $R_8$ 
 $R_2$ 
 $R_{10}$ 
 $R_{10}$ 
 $R_{10}$ 

A separate sheet including the new abstract is also submitted herewith.
